

Baseplate 30V Truss

Catalog number: BASE-30V - Item code: 111500006

Baseplates are designed to facilitate 3 dimensional structures, legs and small towers, by creating a stable and flat surface. The truss can be attached using half conical connector or offset half conical connector. Pre-drilled holes make assembly and mounting easy.

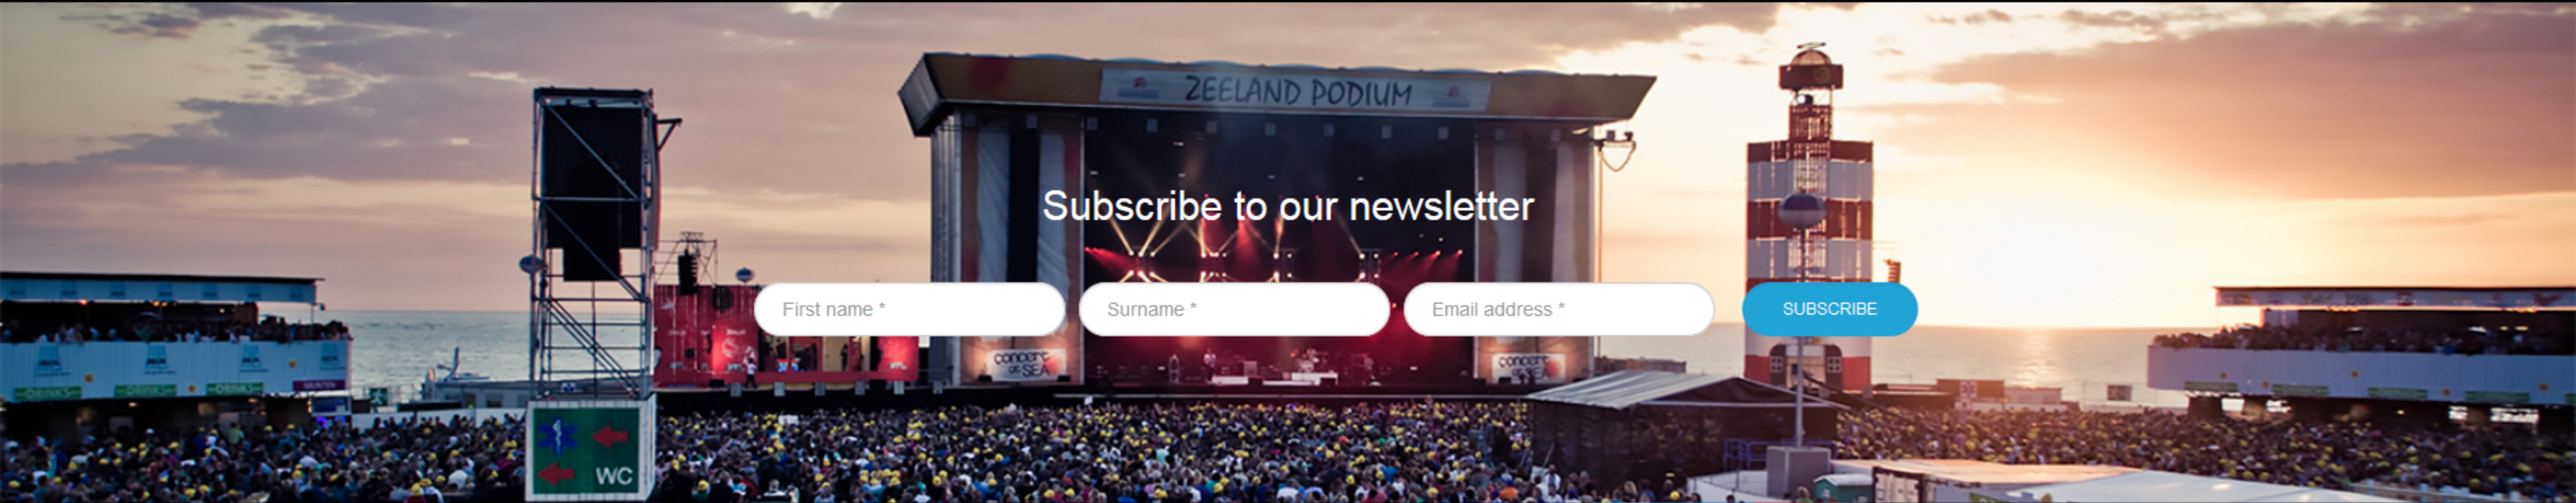

WHERE CAN I GET THIS PRODUCT?

“Our Prolyte system still stood proud after Manila was hit by a typhoon, where other constructions had major problems or even collapsed”
